### The Bay 8 - The Phantom

Welcome to Stage 8, the Phantom

An F-4 pilot once said, “the Phantom ... looked like it was made to kill somebody. It was a beast. It could go through a flock of birds and kick out barbecue from the back.” The large, muscular fighter-bomber and interceptor ruled the skies when introduced in 1961. 5,000 aircraft were built, some of which are still in use by foreign air forces.

The Phantom is brought to you by \_\_\_\_\_.
