WELCOME

Welcome to the 2022 Palmetto State Armory USPSA Multigun Nationals. Jake Martens, Director of Media and Events, Shannon Smith, Match Director, and Troy McManus, Range Master are leading a great group of staff and volunteers in preparing this match for you. You will have your skills tested in many ways while competing against the best in our great country. The stage variety will require you to master of all your equipment efficiently while maintaining your accuracy.

Clinton House and USPSA want you to enjoy the range, we appreciate having everyone join us. Have a great match, stay safe and make some new friends. Hope to meet you on the range.

Sherwyn Greenfield

fouling

Better
knockdowns

Fly through stages with Syntech Action Pistol.

With less muzzle flip for faster follow-up shots and a bullet profile that transfers more knockdown to steel targets, Syntech Action Pistol® is built for speed. The polymer-encapsulated bullet eliminates metal fouling, and the Catalyst lead-free primer deals out the most consistent ignition in competition. Meets major or minor power factor requirements.

USPSA MULTIGUN NATIONALS **MATCH BRIEFING**

SAFETY AREAS: Safe areas are provided for your use and there will be no gun handling of pistols at your vehicle. Rifles and Shotguns may be transferred safely from your automobile to carts as needed. You must have a chamber flag and it must be inserted prior to arriving at the range. The chamber flag must be inserted before shooting, and between stages. You may not sweep any person with the muzzle of a firearm at any time for any reason.

STAGING AREAS: These will be provided at each stage using Long Guns. Staging areas are for storage of long guns and you may handle long guns. These staging areas will also be used as a preload table for shotguns if necessary on the stage. You will preload under the direction of the Range Officers on that stage. You may change chokes in the staging area provided you are not preloaded. If you are preloaded just tell an RO you need to change a choke and they will accommodate you. You may store your rifle in the staging area before and after your run on the stage, in a bag/case or not, laying on or under the table. There will also be room to park 3-Gun carts/wagons facing the berm next to the staging area. Staging area and shotgun preload areas are the same. **YOU MAY NOT HANDLE YOUR PISTOL** in the staging area.

CARTS, BUGGIES AND ATVs

Long Guns are to be carried vertically muzzle up or down in a cart, buggy or ATV (conveyance) with a chamber flag inserted. If your Long Guns are carried horizontally (laying on a red wagon for example) they must to be bagged. Most common practices are muzzle up in a long gun rack on a UTV/ATV(vehicle) or muzzle down at 45 degrees or more on a 3-Gun Cart. If your Long Gun is racked in a motorized vehicle, you MAY remove your flagged Long Guns keeping the muzzle in whatever direction it's in (up or down) and proceed to the stage or to the staging area at your discretion. Same for replacing it. You do not need to be close to a berm to take these actions provided your muzzle stays in the same orientation the whole time. If your Long Guns are in a case, scabbard, or bag, or on a cart, you must uncase or uncart the Long Guns into a berm, without sweeping yourself or someone else. Please be as close to the berm as practical when doing so. The rules state within 6 feet.

SHOTGUN AMMO: Limited to #6's or smaller. 3" OK. Lead only. No steel, tungsten or unobtainium.

RIFLE AMMO: No Steel projectile or jacket. Very simple; if your bullet sticks to a magnet you may not use that ammo and will be DQ'd if you have. Easy test, please test it. Some of the Bi-Metal jackets you can't tell by looking at them but they will stick. While that particular ammo may not be unsafe the magnet test is the only practical way we have to test.

This is a USPSA Match is run under the **USPSA Multigun Rules**. [Click here for full rules.](#)

SLINGS: Will not be required.

COMING TO THE LINE:

In the interest of match flow we want the on-deck shooter to be as ready as possible. You MAY bring your gun(s) to the start position without RO direction when you are on deck. You may not stage them in a barrel, or on a table, or anything. You may bring your Long Guns to the line, flagged, muzzle up or down and wait for the Make Ready command. Example: Rifle/Pistol stage as they are nearing the end of scoring you can and should be at the starting position with your unloaded pistol holstered and your flagged rifle muzzle up or down awaiting commands. This includes bringing said rifle off of your conveyance without direct supervision or direction.

- 10.5.4.3 – Bottom line, you may not sweep any person with the muzzle of a firearm at any time for any reason. Loaded, unloaded, flagged, not flagged. This is common sense gun handling and also a rule.
- The match is a three-day format with 12 courses of fire. Three Zones / Single flight, everyone starts at 0900 each day and will shoot 4 stages (one Zone) that day.
- The match is under **USPSA Multigun Rules**, the scoring is Time Plus. Please review the Multigun Rulebook, there have been some changes as of February 2022.
- Time Plus is two anywhere or one alpha to neutralize the target. Total time to shoot the stage plus penalties
- Stage WSB has the target number and type. Due to the optional targets exact round counts are not possible. Match Directors guidance and taking options into account are Rifle: 180 / Pistol: 130-170 / Shotgun: 130-160 / Slug: 1-20 (only one required slug in the match)
- Distance, long range targets will be up to 400 yards out.
- Divisions (if eligibility requirements are met [see eligibility below]) will be: Open, Tactical, Limited, Heavy Metal Tactical, and Heavy Metal Limited. Please refer to the current Multigun Rule Book for definitions.
- Transitions between firearms will have you “dumping” one for the other using MGM style of drop boxes or barrels.
- Function fire bay will be located in the vendor/demo area [ZONE 2] and all gun handling rules apply
- There will be a parking area in Zones 1 & 2 for all competitors. Zone 3a will have an area as well Zone 3b.
- ATV/Carts are allowed if using a trailer there will be a dedicated parking area for trailers, please inquire at check in.
- Please ensure your USPSA membership is current before arriving to the range.

THESE POLICIES ARE JUST AS IMPORTANT AS THE RULES. YOU ARE EXPECTED TO READ AND UNDERSTAND ALL THE CONTENTS OF THIS MATCH PUBLICATION.

COLD RANGE: The range is a cold range. Firearms will not be handled anywhere on the range except in designated safety areas or under the direct supervision of match staff or as otherwise described herein. Handling handguns in parking areas is unsafe gun handling. Long Guns may be transferred safely from your automobile to carts as needed. Chamber flags are required and must be inserted prior to arriving at the range, and between stages. You may not sweep any person with the muzzle of a firearm at any time for any reason.

SAFETY AREAS: The range is equipped with a number of safety areas to bag and holster guns, for dry fire practice and gun repair, etc. No ammunition may be handled in any safety area.

RULES: The match rules are found in the current edition of the USPSA Multigun Competition Rules.

OBEY YOUR RO'S: Range officers are here to assist you in completing a safe shooting contest. Please comply with their requests. Please bring any issues to the attention of one of the Range Masters.

SET STEEL AND TAPE TARGETS: Competitors are expected to stay together as a squad to tape, set steel, reset, and help maintain efficiency on each stage.

LOST BRASS: All brass is donated to the staff.

DRESSCODE: Practical shooting is a sport. The match director will be the final arbiter of dubious taste.

INSPECTION: When the entire squad is assembled, the written stage briefing will be read. This will be followed by an inspection and question period. Shooters may negotiate obstacles only during this inspection period or while the previous

shooter's targets are being scored. Early inspection is permitted by the squad next scheduled to shoot a stage, providing that the previous squad is finished, you report to the range officer prior to inspection, and time permits.

RANGE OPENING: The range will be open to all competitors starting March 29 at 1pm. Competitors must vacate any stage where match staff are doing final inspection. Competitors may inspect the stages when they are available, but may not activate, set, or reset any moving targets or activated props. Competitors are not allowed to inspect the stages until the range has been opened.

HAZARD AREAS: Orange cones and/or safety flagging may be used to restrict certain areas of the range. For safety reasons, competitors and spectators are prohibited from going past these markers without permission.

EYE AND HEARING PROTECTION:

All competitors and visitors must wear eye and hearing protection at all times while on the range. Eye protection is required to be worn by everyone while on the range. If you do not have adequate eye protection, please see the range master.

MATCH SCORING: The championship will use Practiscore. If you have scoring questions, contact the Range Master and Stats.

RANGE FACILITIES

REST ROOMS: Portable toilets are located conveniently around the range.

FOOD SERVICE: Lunch will be provided at the range. Water will be provided on the bays.

CLOSED RANGE: If the range is marked closed, and a barrier is across the range road, no competitors may enter the range for any reason. If a range area or road is roped or marked closed DO NOT ENTER you may be entering an impact area.

PARKING: Parking areas will be clearly marked on the range map. Competitors may only park in the competitor areas. Lock your car and take your valuables.

PERSONAL VEHICLES: Personal vehicles (i.e. motorized golf cart/UTV etc) are allowed. Carts and wagons are allowed. You must drive slowly and cautiously, and may not park anywhere but on the side of the range road, leaving clearance for staff vehicles at all times. Failure to comply will result in vehicle privileges being revoked.

SPECTATORS: Everyone must wear ear and eye protection while on the range. Climbing on berms is not allowed. Children must be under the direct supervision of a parent. If you need eye protection, please see a range master.

EXHIBITS/DEMO AREA: The U.S. Nationals Exhibits, featuring many different suppliers to our sport, will be in the sponsor tent at the range. Only sponsors of the U.S. National Championships are allowed display areas on the range. Please acknowledge and thank them for their generous support.

PRIZE TABLE/TROPHIES: All trophies will be given out at the awards ceremony. See schedule for times and location. Prizes will also be distributed after the awards ceremony. All prizes are distributed to competitors based on order of finish in each division.

ELIGIBILITY: The National Champion must be a U.S. citizen or a resident with a valid work permit (green card) and a current member of USPSA. Trophies/Plaques will be awarded based on the criteria in Appendix A2 of the current USPSA Multigun Rules. In a National Championship, there must be at least 10 competitors in a division and 5 in a category in that division for recognition. You must be a current USPSA member before the commencement of the match on June 4th in order to compete.

Drawing not applicable for this stage.

This stage doesn't lend itself well to a drawing. It will be using a pistol bay to the north and rifle bay crossing the road shooting south.

You will start in a typical pistol bay with 12 USPSA including a swinger or maybe two and 8 steel.

Then ground pistol, cross the road and from inside a suburban with rifle engage 8 steel from 75 to 300 yards.

STARTING POSITION:

Standing outside shack. BOB with loaded rifle. (Buttstock On Belt).

GUN READY CONDITION: Pistol loaded and holstered, shotgun loaded in barrel.

STAGE PROCEDURE:

SEE BELOW.

TARGETS: 9 Orange Steel, 8 USPSA, 12 Clay, 8 White Steel

Orange Steel: Rifle

White Steel: Pistol or Birdshot

USPSA: Pistol

Clays: Birdshot

Stages 9-12 are natural terrain stages which are difficult to accurately depict in a drawing.

You're going to engage steel with rifle from inside a smaller than you'd like it shack thing. Probably a plate rack and 3 static chest plate size targets. 60-150 yards I'd guess.

Ground rifle beside your conveniently staged shotgun and engage 12 clays while moving 50 yards or so down a slight decline. The large shooting area will be marked with elevated rope. There are white steel targets that may be engaged also with birdshot. If you shoot shotgun like I do you'll probably just take the clays and clean up the steel later with pistol.

Ground shotgun and with pistol engage any remaining poppers and USPSA Targets.

SUPERIOR SAFETY. ABSOLUTE ACCURACY. YOU CHOOSE THE RECOIL!

Introducing ELEY's six competition rounds. Specifically designed and manufactured here in the United States for Practical Pistol and Pistol Calibre Carbine (PCC) disciplines.

[STAGE 10]

MOTHER NATURE JUST PISSED HER PANTSUIT

STARTING POSITION:

Standing in shooting area. BOB with loaded Shotgun (Buttstock On Belt).

GUN READY CONDITION: Unloaded rifle laying in trailer.

STAGE PROCEDURE:

SEE BELOW.

TARGETS: 6 Orange Steel, 5 IPSC,

2 Clay, 18 White Steel

Orange Steel: Rifle

White Steel: Birdshot

IPSC: Rifle

Clays: Birdshot

Stages 9-12 are natural terrain stages which are difficult to accurately depict in a drawing.

There will be two clay throwers you will self activate when you wish for one bird each. These are scored as "regular disappearing targets" meaning you get the 10 second miss penalty if you don't hit them but there is no failure to engage penalty should you not shoot at them. There will also be another 18 steel targets for shotgun from 2 positions.

Then you will dump your shotgun, climb yo big butt up in the trailer to retrieve and load your rifle, scramble up on an additional platform and engage the 5 IPSC targets and 6 orange rifle steel out to 200 or so.

I DON'T DROP CHARACTER

STARTING POSITION:

Feet on marks.

GUN READY CONDITION: Pistol loaded and holstered. Rifle loaded in barrel. BOB with loaded shotgun. (Buttstock On Belt).

STAGE PROCEDURE:

SEE BELOW.

TARGETS: 9 Clays, 9 Orange Steel, 10 White Steel

Orange Steel: Rifle

White Steel: Pistol

Clays: Birdshot

Stages 9-12 are natural terrain stages which are difficult to accurately depict in a drawing.

Here you will have 9 clays through the woods engaged with birdshot while moving down hill.

Dump shotgun and with rifle you will have a plate rack at about 100 yards and 3ish static steel chest plate size out to about 300 from a supported position.

Dump rifle, vault rail and you will have pistol steel, plate rack and 4 statics at a steep downhill angle about 30 yards away.

[STAGE 12]

THIS HEAD MOVIE MAKES MY EYES RAIN

STARTING POSITION:

In shooting area.

GUN READY CONDITION: Loaded shotgun in weak hand, clay bird in strong hand.

STAGE PROCEDURE:

SEE BELOW.

TARGETS: Clays and steel. Lots of them.

stage sponsored by

Stage 12 will be a shotgun only jungle run. You will start with a hand thrown clay scored as a "regular disappearing target". Then moving down the road with clays and steel left and right possibly finishing with a clay target thrower.

I'm not sure the round count here but it's going to be on the heavy side. Depends on how it lays out during build. I'd plan for 40ish rounds.

AMMO SHIPPING

Ammo Shipping Information for the 2022 Palmetto State Armory Multigun Nationals

Here's some information for shipping your ammunition to Clinton House Range in Clinton South Carolina
Shipping location:

**“Your Name”
c/o Clinton House Range
Attn Dawn Clevenger
USPSA Multigun Nationals
15171 SC-56
Clinton, SC 29325**

NOTE: DO NOT SHIP AMMUNITION BY THE UNITED STATES POSTAL SERVICE! IT IS A VIOLATION OF FEDERAL LAW TO DO SO, AND YOU WILL BE LIABLE FOR ANY LEGAL ISSUES. WE ARE CONSIDERING NOT RECEIVING ANY AMMO SHIPPED THROUGH THE POSTAL SERVICE, AND THEIR CARRIERS MAY DECLINE TO DELIVER IT. YOU MUST SHIP BY COMMERCIAL CARRIER, UPS OR FEDEX OR ANY OTHER CARRIER THAT WILL SHIP AMMO—NOT THE USPS.

1) Use a very sturdy box and lots of tape. Ammo is heavy and the carriers will not treat that box like a carton of eggs. Do not place ammo inside the box loose; use plastic or cardboard boxes with separators designed to hold ammunition. That's usually a requirement for all commercial carriers. Place lots of padding around the ammo boxes. **DO NOT SHIP IT IN AN ENVELOPE.**

2) **Put your name and “**USPSA MultiGun Nationals**” on the outside of the box, in big, **bold** letters, and covered with clear tape. Put it there in at least 3 different locations.** In addition, insert a business card, or a small piece of paper inside the box with all of your contact information. Some boxes get damaged in shipment, making the outside illegible. The information inside will help determine who the owner is, and allow them to contact you should some of your ammunition be lost due to damaged packaging.

3) UPS/FedEx will ship ammo, ground only, if it's properly marked with an ORM-D Label. Be sure to package your ammo securely in boxes designed to hold ammunition, and use a sturdy box and lots of tape. Most UPS stores and FedEx Office will not accept ammo shipments; you can hand them to a route person, schedule a pickup, or take them to a UPS/FedEx depot/service center.

4) Ship your ammo in time for it to arrive prior to the match. It must go ground, per **UPS** and/or **FedEx** regulations, so give it time to get there. Again: **NO AMMO BY US POSTAL SERVICE.**

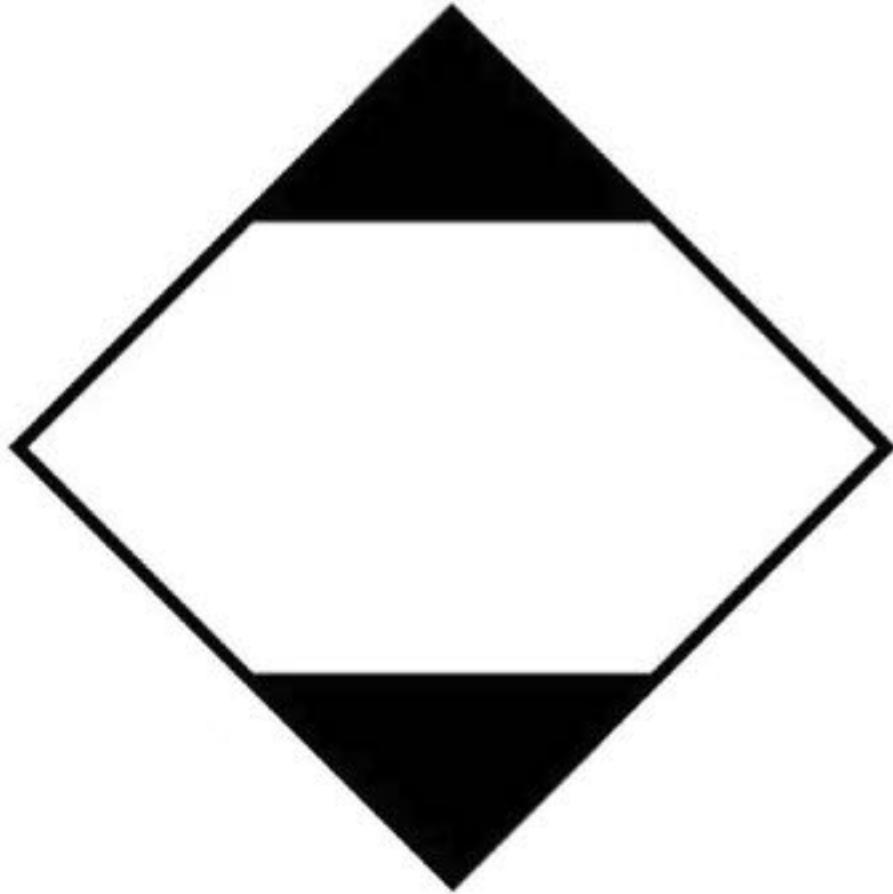

The folks at CMP Marksmanship Park will collect your ammunition and store it until USPSA personnel are on the ground at the range. We (USPSA) will distribute it at or around registration or during the match. It will be better if you collect your ammunition during registration periods so that we can assure that we have people on hand to distribute it. You may be required to sign for any ammunition you pick up. If you want to collect your ammo at times other than registration, you may experience a delay in getting it until someone is free.
